NORSPRAY® 105

NOR105

NW3205

NORSPRAY® 105 is a complete air operated low pressure paint spray unit equipped with the unique **NORSPRAY® 57** high volumen low pressure paint spray gun.

NORSPRAY® 105 can save the applicator up to 30% paint/materials, up to 40% on air filters in spray cabins and up to 30% lower solvent emissions compared to conventional spray guns.

NORSPRAY® 105 is friendly to the environment.

NORSPRAY® 105 is designed for the small to medium size industry needing a one man/one spray gun operation. Also ideal for the professional painter looking for a very high finish or for the body shop with a high turnover.

Main advantages:

- Complete one man painting unit with very high finish quality.
- Applies light to medium viscosity products.
- High volumen low pressure spray gun NOR57 equipped with PTFE needle packings and air valve seat and stainless steel fluid nozzle and needle.
- Suction hose silicone free for spraying water based coatings.
- 5 ltrs gravity hopper on option.
- Unit simple to operate and offers low maintenance costs.
- Low air consumption.
- After-sale service assured by your dealer.
